Coral Triangle Day 2013

Outcomes Report

Overview

June 9 was officially recognized as the Coral Triangle Day at the 4th Coral Triangle Initiative Ministerial Meeting held in Putrajaya, Malaysia last November 2012. This has proven to be a critical impetus for national governments, local communities, private establishments, and individual supporters to take action on this special day and express their concern for this region's valuable marine resources through numerous activities around the Coral Triangle.

Now on its second year, Coral Triangle Day proved to be bigger than last year, with **more than 60 individual Coral Triangle Day events** taking place around the region.

Participating countries this year included: **Indonesia, Malaysia, Papua New Guinea, Philippines, Timor Leste, Solomon Islands, and Fiji.**

Over **30,000 people** participated in this year's Coral Triangle Day.

Fostering a Sense of Community and Camaraderie in Sustaining the Coral Triangle's Unique Marine Biodiversity

In line with the official endorsement of Coral Triangle Day by the six member countries of the Coral Triangle Initiative on Coral Reefs, Fisheries, and Food Security (CTI-CFF), the CTI-CFF Interim Regional Secretariat and the six CTI National Coordinating Committees (NCCs) worked with various partners to organize more than 20 events to mark Coral Triangle Day this year. “We at the CTI-CFF Interim Regional Secretariat are inspired to see this groundswell of enthusiasm in celebrating Coral Triangle Day 2013,” CTI-CFF Chair Sudirman Saad said. “This encourages us to move forward on the important, but no less challenging path that we began to undertake in 2009.” He noted that the CTI-CFF, the multilateral partnership of the six countries, has demonstrated that by working and collaborating at the regional, national, and community levels and involving as many stakeholders in its programs, it can make headways in protecting the Coral Triangle's marine and coastal resources.

Some of the activities led and organized by the CTI-CFF in celebration of Coral Triangle Day include:

June 4, 2013 in Dili, Timor-Leste

The Timor-Leste CTI NCC, USAID's Coral Triangle Support Program, and the National Oceanic and Atmospheric Organization organized an interactive workshop on marine biodiversity.

June 6, 2013 in Port Moresby, Papua New Guinea

The PNG CTI NCC led clean-up and turtle-tagging activities at Ela Beach.

June 9, 2013 in Lombok, Indonesia

The CTI-CFF Interim Regional Secretariat and the Ministry of Marine Affairs and Fisheries Indonesia joined beach clean-up activities in Ampenan, Bintaro and LoangBaloq/TanjungKarang. More than 1,500 people participated in the event organized by the Indonesian Sea Turtle Foundation.

June 9, 2013 in Cebu & Batangas, Philippines

The CTI NCC and partners organized a beach clean-up and mangrove planting activity in Calatagan, Batangas, while 20 public and private sector partners gathered to organize simultaneous beach clean-ups in Lapu-Lapu City, Cebu.

June 7-11, 2013 in Putrajaya, Malaysia

The Ministry of Science, Technology and Innovation organized eight activities to mark Coral Triangle Day and World Oceans Week, the highlights of which include the a two-day CTI-CFF Conference and a launch in Aquaria KLCC.

June 11, 2013 in Honiara, Solomon Islands

The Ministry of Environment, Climate Change, Disaster Management and Meteorology organized an exhibit at the National Gallery to mark Coral Triangle Day and the fifth anniversary of CTI-CFF implementation in the country.

Coral Triangle Day around the Region

Coral Triangle Day was celebrated around the region by varied individuals, organizations, and establishments through beach clean-ups, clean-up dives, mangrove planting, recycling programs, educational talks, puppet shows, coloring contests, sustainable seafood launches, mural painting contests, and other public outreach campaigns.

A good number of schools and school children participated this year and lent their support in their local coastal clean-up activities alongside private establishments, local government units, and NGOs.

Below is a rundown of Coral Triangle Day events that took place in the region:

Promoting Responsible Seafood Retail and Consumption with Celebrity Chef Bobby Chinn

WWF once again teamed up with celebrity chef Bobby Chinn for Coral Triangle Day to help promote responsible seafood retail and consumption. This year, Bobby Chinn attended a number of Coral Triangle Day events in Kuala Lumpur, Malaysia (he was in Bali, Indonesia for Coral Triangle Day last year).

Bobby helped promote seafood sustainability by meeting the chefs and cooks of high-profile hotels and establishments in Kuala Lumpur.

He met Chef Richmond Lim of Kuala Lumpur Convention Centre and discussed sustainable

seafood and an alternative to shark's fin soup. He also met the chefs of Traders Hotel, where he demonstrated how to prepare his signature seafood ceviche using ASC-certified local tilapia from Trapia Malaysia Sdn. Bhd. His recipe will be featured on Traders Hotel's menu for a month. Bobby also met Chef Adam Watson of DoubleTreeHilton Kuala Lumpur and taught the kitchen crew how to make three kinds of canapés using MSC and ASC-certified seafood products from Trapia Malaysia Sdn. Bhd., and Golden Fresh Sdn. Bhd.

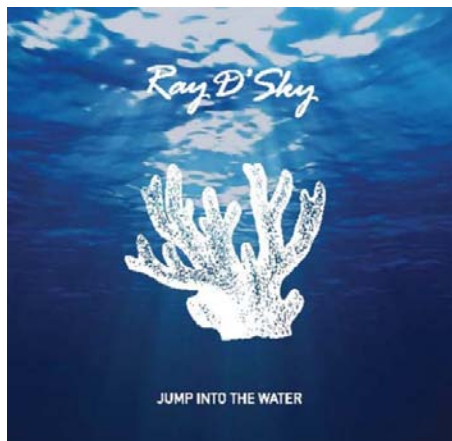

Bobby then graced the launch of World Oceans Week and the Coral Triangle Day at Aquaria KLCC, where he did a live cooking demonstration of an alternative to shark's fin soup.

On Coral Triangle Day, Bobby helped launch WWF-Malaysia's updated [S.O.S. Seafood Guide](#) at DoubleTree Hilton Kuala Lumpur and prepared MSC and ASC-certified canapés for the event.

Check out this WWF video on Bobby Chinn's participation in Coral Triangle Day events in Kuala Lumpur and his efforts to promote sustainable seafood here: <http://www.youtube.com/watch?v=8CReC3rgadE&feature=youtu.be>

Coral Triangle Day Music

Musical artists from Indonesia and the Philippines also joined the celebration this year by sharing their music especially for Coral Triangle Day.

Filipino contemporary singer and song writer [Joey Ayala](#) shared his album "[Awit ng Mandaragat \(Songs of the Seafarer\)](#)" for Coral Triangle Day. This was made possible through CTI SEA with permission from Bagong Lumad Productions, Inc., and the Philippine Bureau of Fisheries and Aquatic Resources-Fisheries Resource Management Project (funded by the ADB and JBIC)

Indonesian musical artist [Ray D'Sky](#) likewise shared his song "[Jump Into the Water](#)" in celebration of Coral Triangle Day. These songs are available for download on the links provided or visit www.thecoraltriangle.com/day.

Media Coverage

The Coral Triangle Day generated extensive media coverage from around the region. Here are some media hits from the event:

The Coral Triangle in numbers

Why we are here

To stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature.
