

Coral Triangle Initiative on Coral Reefs, Fisheries and Food Security (CTI-CFF)

Attachment 10-1 INDONESIA COUNTRY REPORT STATUS

6th CTI-CFF SENIOR OFFICIALS MEETING (SOM6)

10-12 November 2010

Manado, Indonesia

Indonesia Country Report Status

Source: Indonesia NPOA
Version: June 2009

GOAL	Target	Action	NATIONAL ACTIONS	Target Date	Scale	Status	Regional Value	Rank
G1	T1	1	Seascape designated will be streamlined with the existing fisheries management area (wilayah pengelolaan perikanan-WPP)	2014	District			
G1	T1	2	Indonesia will finish conducting series of scientific characterization to identify and delineate several new seascapes within Indonesia's jurisdiction, for example, Sunda-Banda and Sawu Seascapes	2010	Nat'l			
G1	T1	3	Indonesia will conduct series of scientific characterization to identify and delineate seascapes with potential trans-boundary issues	2010	Nat'l			
G1	T2	1	Indonesia will maintain the on-going management of existing seascapes for improved quality of marine and coastal resources	TBD	Nat'l			
G1	T2	2	Lesson learned mechanism from existing seascape for replication in Indonesia will be in place	2010	Nat'l			
G1	T2	3	Mobilize new and additional funding to support priority seascape program	TBD	Nat'l			
G1	T2	4	Implementation of existing regional seascapes (SSME and BSSE) program within Indonesian jurisdiction	TBD	Nat'l			
G1	T2	5	Conduct periodic monitoring and evaluation on the effectiveness of seascapes	TBD	Nat'l			
G2	T1	1	Develop regulations related to the EAFM supporting Law No. 27/2007 on coastal and small islands management and Law No. 31/2004 on Fisheries.	TBD	Nat'l			
G2	T1	2	Address and enforce legislation and regulations in combating IUU fishing and related issues	TBD	Nat'l			
G2	T1	3	Adoption of various international commitments (Such as Resolution and Management Measure adopted by RFMOs)	TBD	Int'l			
G2	T1	4	Implement National Plan of Action derived from international Plan of Actions such as IPOA on Fishing Capacity	TBD	Nat'l			
G2	T2	1	Continue existing and, as needed, develop alternative income generating program, including capacity building and support for the small-scale enterprises at the community level (e.g. marketing)	TBD	Local			
G2	T2	2	Additional funds and/or capital small scale enterprise at the community level	TBD	Local			
G2	T2	3	Develop integrated coastal fisheries communities to achieve sustainable fisheries	TBD	Local			
G2	T2	4	Develop certifications schemes for fisheries best fisheries practice and products	TBD	Nat'l			
G2	T3	1	Revitalize tuna fisheries through increasing capital technical capacity of actors at different level, marketing, field monitoring, processing, as well as cold chain system	TBD	Nat'l			
G2	T4	1	Develop baseline data of aquarium fish and promote standard of Marine Aquarium Fish	TBD	Nat'l			
G2	T4	2	Develop strategic plan of sustainable fisheries for live reef fish trade	TBD	Nat'l			
G2	T4	3	Develop comprehensive management plan of Banggai Cardinal Fish	TBD	Nat'l			
G3	T1	1	Establish and strengthen national system (grand strategy) of Marine Protected Areas integrated into	TBD	Nat'l			

			regional and global networks to contribute to meet global agreed goals					
G3	T1	2	Establish and strengthen trans-boundary protected areas and collaboration between neighboring protected areas across national boundaries	TBD	Int'l			
G3	T1	3	Improve MPA planning and management that address local and global key threats to marine resources	TBD	Nat'l			
G3	T1	4	Enhance and ensure involvement of local communities and relevant stakeholders in MPA planning and Management	TBD	Local			
G3	T1	5	Provide an enabling policy and institutional environment for MPA	TBD	Nat'l			
G3	T1	6	Build capacity and strengthen institution for the planning, establishment and management of MPA	TBD	Nat'l			
G3	T1	7	Ensure funding sustainability for MPA and district and national system of MPA	TBD	Nat'l			
G3	T1	8	Strengthen communication, education and public awareness on MPA	TBD	Nat'l			
G3	T1	9	Evaluate and improve effective management of national MPA systems	TBD	Nat'l			
G3	T1	10	Assess and monitor MPA status and trends	TBD	Nat'l			
G4	T1	1	Identify and map Indonesian CT areas on their susceptibility levels on climate change impacts and link the information to biodiversity and socioeconomic value	TBD	Nat'l			
G4	T1	2	Produce national general guidelines on adaption measures on the potential of climate change impacts on marine and coastal ecosystem and communities based on synthesis and understanding of available science, information and knowledge	TBD	Nat'l			
G4	T1	3	Formulate early warning system and response to weather variability, temperature variability and to changes storm phenomenon, including in coral bleaching and formulate immediate strategy or response on potential impacts of climate change on fishermen, such as impact of changes in weather pattern and season, sea temperature and storm	TBD	Nat'l			
G4	T1	4	Conduct and develop strategic research that provides information critical to reducing key threats to coral reef ecosystem	TBD	Nat'l			
G4	T1	5	Capacity building on education, research, and information system on climate change issues, related consequences and adaptation measures.	TBD	Nat'l			
G4	T2	1	Develop and conduct various researches on climate change impact to biodiversity and socioeconomic, cost and benefit of actions and inactions and feed the result into policy processes.	TBD	Nat'l			
G4	T2	2	Develop National Center of Excellence on Climate Change Adaptation for Marine and Coastal Ecosystems	TBD	Nat'l			
G4	T2	3	Develop national network on climate change research stations, sharing information	TBD	Nat'l			
G4	T2	4	Develop communication strategies for biodiversity and socio economic affect of climate change and synthesize existing information and knowledge (e.g., economic valuation/opportunity, connectivity, etc) to develop recommendation based on information.	TBD	Nat'l			
G5	T1	1	Support assessment of sharks, sea turtles and cetaceans and selected marine invertebrates and plants.	TBD	Nat'l			
G5	T1	2	Strengthen the implementation of CITES through management and scientific authorities	TBD	Nat'l			
G5	T1	3	Implement the National Plan of Action for shark	TBD	Nat'l			
G5	T1	4	Implement the Ministerial Regulations on Napoleon Wrasse	TBD	Nat'l			
G5	T1	5	Implement and enforce the Government Regulation No. 7/1999 on Marine Mammals	TBD	Nat'l			
G5	T1	6	Implement the National Plan of Action for turtle	TBD	Nat'l			

LEGENDS FOR THE WORKSHEET

STATUS	Status of NPOA Action or Partners Activity
0-Proposed	Has: need, mandate. Does Not Have: TOR, budget
1-Planned	Has: TOR, Budget. Does Not Have: Action on Ground
2-In Progress	Has: Action on the ground
3-Closing	Has: People on ground. Does not Have: Future Activity with same funds

REG VALUE	"Regionality" or Regional Value of NPOA Action
Collective Action	Requires collective action
Collective Plan	Applies collective planning but parallel, independent action
Similar Practices	Applies independent but similar action (i.e. best practice)

RANK	Importance of NPOA Action to Address Regional Goal
High	Critical, Needed as first action for other steps, highest cost/benefit
Med	Very Important, but not time sensitive, or lower cost/benefit
Low	Important, but not time sensitive, or smaller impact
